-the white-painted ceiling beams and light bare wood ceiling fill is excellent!  
-goes well with the brick and also the polished concrete floor

-good night view of same...The cross-brace is interesting, if perhaps a little too industrial though

-great example of painted Gastown  
loft brick... in this case white

-really like the glossy red Miele kitchen cabinetry...  
feels very Max to me

-lovely stained-glass style  
art glass

*-The floor to ceiling window treatments would work well on the large windows of the front wall of our set*

*-the large windows echo our set, and tie into our Gastown/Vancouver vibe*

*-The warm modern sofa is nice, especially with the bright concrete floor, but we might want to go more punchy/colorful with Max's style sense*

*the light-colored stairs are nice...  
as is the cabinetry lighting*

*this style of cabinetry & island...*

*...but in this wood tone*
